Process description

Service requests

E-mail

- the customer shall send the documents to the e-mail address of the State Plant Protection Service or to the official electronic address.
- documents must be signed with a secure electronic signature.

Mail

- the customer sends the documents by mail.

In person

- the customer arrives at the State Plant Protection Service and submits documents.

Documents to be submitted:

1. Completed form "Application for the registration of an EU fertiliser bearing the CE marking".
2. The text of the identification mark, label or accompanying document of the fertiliser manufacturer in the original

language and their translation into the Latvian language corresponding to Annex III to Regulation 2019/1009.

3. A copy of the manufacturer's EU declaration of conformity in the original language and its translation into the Latvian language in accordance with Annex V to Regulation 2019/1009.

The service is free.

The State Plant Protection Service shall:

- review the documents submitted;
- take a decision on the inclusion of a fertiliser in the inventory;
- enter the information regarding the fertiliser in the national crop monitoring information system.

Receipt of services

The State Plant Protection Service shall:

- publish information on the EU fertiliser bearing the CE marking in the national register of State Plant Monitoring Information System Fertilizers and Substrates;
- electronically inform the customer of the inclusion of the fertiliser in the EU registration of CE marked fertilisers.
