## Description:

The summary must be submitted by 30 November of the current year.

Farmers particularly sensitive areas (Dobeles, Jelgava, Bauska, Marupe, Oblin, Keekava, Salaspille, Ropažu, Adage, Saulkrau and Sigulda municipalities, excluding Bauska municipalities Valle and Kurmenes, Sigulda municipalities, the administrative territory of Jelgava civil parish, as well as Jelgava, Riga and Jurmala municipality borders) operates agricultural land of 20 hectares and in a larger area or growing vegetables, potatoes, fruit trees or sockets in three hectares and larger area and uses fertiliser products, to be submitted to the State Plant Protection Service each year in the crop protection service summary of the recovery plans for the current year

## Process description

### Process description

#### Summary submission

##### E-service

- Customer submits documents using the e-service Rural Support Service (LAD) in the Electronic Login System (EPS)
- To do this, register with the LAD Customer Register. When you register for a LAD client, the EPS access is granted automatically. Detailed information on the required documents and the procedures for submitting them is available on the <http://www.lad.gov.lv/lv/e-login-system-eps-1/ka-klut-per-user> website /
- if the customer is already registered in the LAD Customer Register, then authorizes LAD EPS and selects the “Summary of crop plans” service in the main menu under the heading “National Plant Protection Service”

Information on the use of the e-service “Summary of crop manure plans” is available in the manual and in the video guide (see “Documents and Forms”).

##### E-mail

- Customer sends documents to official e-mail address or e-mail address [pasts@vaad.gov.lv](mailto:pasts@vaad.gov.lv)
- documents must be signed with a secure electronic signature

The service is free
