Time limit for the submission of the request, not later than 48 hours before the export Time limit for receipt of the service - within a period of 48 hours, if laboratory tests of plant products have already been performed or are not required

Get a service

On-site

In order to export plants and plant products from Latvia to countries that are not members of the European Union, a phytosanitary certificate for export or re-export is necessary. The phytosanitary certificate is a document attesting that the exported plant production has been inspected and conforms to the phytosanitary requirements of the beneficiary country prior to its export from Latvia.

The State Plant Protection Service shall:

- clarify plant and plant production phytosanitary requirements in the beneficiary country;
- carry out a plant production test (sampling and laboratory tests, if necessary);
- issue a phytosanitary certificate to the person.
