Description:

Person who is the holder of a registration certificate for the living organism

Get a service

On-site

Only live organisms and invertebrates included in the Register of Plant Protection Products (e.g. insects, ticks, nematodes) are permitted for plant protection in Latvia.

When a living organism is registered, the conditions of use shall be determined which shall be indicated in the labelling text.

After the expiry of the term of validity of the registration certificate, the living organism may be re-entered in the register if the relevant application of the owner of the registration certificate has been received.
