Only plant protection products registered in the Register of Plant Protection Products are authorised in Latvia. In accordance with Article 53 of Regulation (EC) No 1107/2009, in special circumstances, a Member State may authorise the placing on the market of a plant protection product for a period not exceeding 120 days, where such a measure appears necessary due to a risk which cannot be addressed by other acceptable means. In this case, the plant protection product is not included in the register. The holder of the authorisation shall use the plant protection product in accordance with the indications in the authorisation - only for those crops, against the harmful organisms thereof, at the prescribed dose of use, during the prescribed period of use, taking into account the number of apstrates and the waiting time until harvest.
