The Latvian Plant Varieties Catalogue is a list of plant varieties in which seed of cereals, fodder plants, oil plants and fibre plants, beet, potato and vegetable varieties is permitted to be certified and verified and sold in accordance with the rules for growing and marketing of seed.

The variety shall be included in the catalogue if:

- 1) it has been recognised as different, uniform and stable;
- 2) its name complies with the requirements of the International Union for the Protection of New Varieties of Plants (UPOV) and European Union legislation;
- 3) after the assessment of the economic characteristics of the variety it has been recognised as complying with the requirements specified in regulatory enactments.

In order to include a plant variety in the Latvian Catalogue of Plant Varieties, a person shall submit a submission to the State Plant Protection Service.
