-

Description:

Time limit for the submission of the request - without limitation. Time period for receipt of the service - within five working days after receipt of the submission (not including performance of laboratory tests).

Description:

A person who is registered in the official register of Professional Operators and exports plants and plant products for which a phytosanitary certificate is required.

Get a service

On-site

A pre-export certificate is required if plants or plant products are to be exported to a country outside the European Union (EU), and exports will take place not from Latvia but from another EU Member State. A pre-export certificate issued in Latvia confirms that plants or plant products have been tested in Latvia in accordance with the requirements of a non-EU beneficiary country. On the basis of a pre-export certificate issued in Latvia, a phytosanitary certificate may be issued in another EU Member State.
